GAMESCOM 2026

GREEK VIDEO GAMES

The Hellenic Film and Audiovisual Center- ΕΚΚΟΜΕΔ proudly supports the participation of the Greek National Delegation at Gamescom 2026, marking the second consecutive year of Greece's official presence at the world's largest gaming event.

Building on the success of our inaugural participation, this year's delegation returns with an even stronger presence, featuring an expanded B2C booth that will showcase an exciting lineup of innovative Greek video games to the international gaming community. Visitors will have the opportunity to discover original titles that reflect the creativity, technical excellence, and unique vision of Greek video game developers.

As Greece is emerging as a dynamic hub for digital creativity and interactive entertainment, our aim is to increase the visibility of the country's growing game development sector, foster meaningful collaborations with industry professionals, publishers, and investors, and create new opportunities for Greek creators to expand into international markets.

ΕΚΚΟΜΕΔ, serves as the lead coordinator responsible for the planning and implementation of the Delegation, and Enterprise Greece, the national agency for investment promotion and export development.

PPC (Public Power Corporation) is the Major Sponsor of the National Delegation to Gamescom 2026. Through its investment in next-generation fiber-optic networks and its PPC Fiber services, the company delivers ultra-fast download and upload speeds, reliable connectivity, and low latency–key factors for an optimal online gaming experience, content creation, and digital entertainment. Endeavor serves as Strategic Partner, supporting some of the most promising entrepreneurs in Greece and abroad while strengthening the international presence of Greek entrepreneurship. AEGEAN is the Official Air Carrier Sponsor, while the Hellenic Federation of Hellenic Information ICT Enterprises (SEPE) contributes by connecting the technology sector with the production of digital content. The National Delegation, supported by the Game Developers Association Greece (GDA) and the IGDA Chapter of Greece, will host nine Greek indie studios showcasing both completed and in-development digital games. The participation in Gamescom 2026 is also supported by Creative Europe MEDIA Desk Greece (host organization ΕΚΚΟΜΕΔ).

At ΕΚΚΟΜΕΔ, we are committed to supporting the intersection of creativity, innovation, and technology, empowering Greek studios to develop world-class interactive experiences and connect with global audiences.

GREEK NATIONAL DELEGATION GAMESCOM 2026 PARTICIPANTS

Astra - Fading Stars

Dimension Omega

It’s you who can make a change. Use your soul to fight the corruption that leaks in the mysterious and atmospheric universe of Astra. Dive deeply into the essence of this world and navigate around danger leaning on truths and secrets. The Stars are Fading! Soon the darkness will swallow them all.

LUMINAS PARASITE REIGN

SOTO Game Studio

Luminas: Parasite Reign is a party-based survivor roguelite where magic meets chaos and strategy decides survival. Command a party of three Luminas as they fight back against the parasites corrupting the world of Solaris Land. Endure relentless waves, face epic boss battles, and evolve each Luminas' abilities, building your ideal party around various synergies. Every death feeds the next descent; every run is a fresh chance to grow stronger and push deeper into a handcrafted voxel world. It's a survivor roguelite reborn around the party, turning the genre's solo grind into a living team you assemble, empower, and fight to keep alive, revolutionizing how you survive.

The Purple Peacock

Casus Aenigma & Twins Creative Studio

The Mystery of the Purple Peacock follows Virgil Russ, a struggling antique dealer drowning in debt, who receives an unexpected offer from an anonymous client: track down a rare postage stamp known as the Purple Peacock.His search leads him to Eugene Grove, a quiet rural town where every resident seems to know a little more than they're willing to admit. As Virgil follows a trail of clues through eccentric locals, forgotten collections, and seemingly unrelated favors, what begins as a straightforward retrieval job slowly unravels into a web of hidden motives, old rivalries, and carefully guarded secrets. In a town where everyone has a story—and every clue raises new questions—finding the stamp may turn out to be the easiest part of the mystery.

Theropods

Lost Token / Dionous Game

Theropods is a 2D point-and-click adventure set in a prehistoric world where humans and dinosaurs coexist. After a mysterious yellow stone falls from the sky, a young hunter's village is attacked and her people enslaved. She escapes, only to discover the stone came from a crashed space pod—and a stranded spaceman is behind it. Together, this unlikely duo must journey across dangerous lands, facing hostile tribes and hungry dinosaurs, to rescue her people and help the spaceman return home. Told entirely without dialogue, Theropods combines cinematic storytelling, expressive animation, and retro pixel art to deliver a bold, wordless adventure.

NEXT SOUL, PLEASE!

eNVy softworks

Next Soul, Please! is a satirical narrative game where you judge the fate of the dead as a low-level employee in the afterlife's most dysfunctional bureaucracy. Interrogate souls, cross-reference holy texts, and survive the paperwork of eternity—all while navigating divine politics, absurd rules, and your own questionable coworkers. Your moral compass is your only guide (until it isn't). Next Soul, Please! turns damnation into desk work, offering a darkly comedic blend of Papers, Please, The Good Place, and Coffee Talk—where every decision counts, and heaven has HR.

PARANORMAL GROUNDS: THE BLISS

Developer: NGONART STUDIO | Publisher: LAKESIDE GAMES

“Welcome to The Bliss - where every worry goes away.”
Paranormal Grounds: The Bliss is a psychological horror narrative set within a failing 1970s government experiment. The story explores the concept of a “mental bunker”– an artificial, psychic containment simulation designed to be a perfect sanctuary, which has been corrupted by a trans-dimensional force known as “The Static”.

SEINA: A TALE OF SPIRITS

PofuPofu Studios

Seina: A Tale of Spirits is a cozy fantasy adventure about Mika, a young girl searching for her lost cat, Seina. Her journey leads her into a peaceful, hand-painted world filled with cute animal spirits, ancient shrines, and quiet magic.

Usefull Links → **Steam** **Press Kit** **Instagram** **Trailer**

SPACEBORN AWAKENING

ProtoGames

Somewhere out past the last mapped system, a station that went quiet decades ago has started transmitting again. Your crew is the closest ship. Your crew is also, regrettably, the only ship. Spaceborn: Awakening is a narrative-driven bullet-heaven roguelite about what happens when ordinary people touch something cosmic and do not put it down again. Cut through the Voss Praetor's corrupted swarm, push deeper into the station and awaken powers that are frankly far too large for the person holding them.

UP THE STAIRS

Yogini Games

Up The Stairs is an award-winning first-person 3D exploration adventure and research-based serious game prototype designed to empower young adults with aphasia, a language disorder often caused by stroke or brain injury. A sudden earthquake, symbolising the life-changing event that causes aphasia, shatters a vast staircase ascending towards a monumental sculpted head rising above the clouds. As the staircase collapses, the player falls onto an island inspired by the Greek Aegean, where an inner and outer journey begins.

arcweave

Streamlining Game Narratives

ARCWEAVE

Arcweave

Arcweave is a visual, collaborative platform where writers, narrative designers, and developers build branching, interactive stories together, in the browser. Design your story visually, prototype and playtest instantly in-browser, then sync it live to Unity, Unreal, or Godot, or pull the logic already in your codebase back into an editable map. Whether you change it in the engine or in Arcweave, it stays in sync. Used by game studios, XR teams, and serious games creators to cut narrative implementation time by up to 50%..
